

McAfee Managed Security Services

It is estimated that there are **3.5 million unfilled global security jobs**. Finding qualified resources is more challenging than ever. UNS can help fill the gaps with our McAfee Managed Services offering. While it may be challenging to justify experts in every security product you use, having expert level advise and knowledge is an opportunity you can't afford to miss.

McAfee Managed Security Services provides you with recurring access to experts in the entire McAfee product suite.

Benefits:

- **Flexibility** — targeted experts for your changing needs.
- **Return on investment** — maximize value for the tools you have invested in.
- **Supplement skills** — fully implement and manage your security investment.
- **Support routine operations** with expert level cybersecurity resources.
- **Project assistance** with upgrades, migrations, implementations, etc.
- **Mentor junior resources** — training and guidance provided by senior level consultants.
- **Cost Effective** — senior Engineer experience at a price that fits your budget.

**UNS provides you with recurring access to experts in a variety of security products.
Fill the gaps you have when you need it. Easily trade time with one product expert for another.**
